## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 1-4, 11-14, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Adee (US 4,066,274).**

Regarding claims 1, 11, and 19, Adee discloses a method and apparatus comprising: a tong seen as tongue (10), a center section operably attached to the tongue at a substantially right angle seen as support arms (16), an inner wing section operably pivotally attached to an outer end of the center section seen as segments (28, 30), and an outer wing section operably pivotally attached to an outer end of each inner wing section which can be viewed as links (76), and folding means for rotating both wing sections at pivot points, seen as connections (20), located on the center section to bring outer ends of the wing sections forward until the wing sections lie substantially parallel to the tongue as illustrated in Fig. 2.

Regarding claims 2 and 12, the center section is supported by the ground engaging wheels (14) seen in Fig. 2.

Regarding claims 3 and 13, Fig. 2 illustrates the pivot points between each of the wings sections supported by numerous wheels.

Regarding claims 4 and 14, Fig. 1 illustrates wheels (74) by, or located substantially at, the extreme end of the outer wing sections.

Regarding claim 20, the toolbar of Adee can be viewed as forwardly folding, as illustrated in Fig. 2 by viewing that folding direction as forward.

### ***Allowable Subject Matter***

3. Claims 5-10 and 15-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
